

Node.js Programming

What is Node.js Programming?

Node.js is a JavaScript runtime used for building fast and scalable backend applications.

Course Highlights

- 1 Server-side JavaScript
- 2 High Performance
- 3 Real-time Applications
- 4 Industry Relevant

What You Will Learn

- 1 Node.js Basics
- 2 NPM & Modules
- 3 Express.js
- 4 REST APIs
- 5 Authentication

Who Can Join?

- 1 Students
- 2 Backend Learners
- 3 Web Developers
- 4 IT Aspirants

Course Duration

2 to 3 Months

Practical Training

Offline Support

Certification

Certificate provided after successful completion.

Career Benefits

1 Backend Developer

2 Node.js Developer

3 API Developer
