Backend Development

What is Backend Development?

Backend Development handles server-side logic, databases, and application performance.

Course Highlights

1   Server-side Technologies

2   Database Connectivity

3   API Development

4   Industry Relevant

What You Will Learn

1   Server Logic

2   Databases

3   REST APIs

4   Authentication

5   Deployment

Who Can Join?

1   Students

2   Developers

3   IT Aspirants

4   Career Switchers

Course Duration

2 to 3 Months
Hands-on Training
Offline Support

Certification

Certificate provided after successful completion.

Career Benefits

1 Backend Developer

2 API Developer

3 Software Engineer
